

## American Market Index Uniflex - Shares Breakdown by Issue

While ensuring 100% principal protection at maturity, the American Market Index Uniflex invests during a 6-year term in a broad range of 20 American shares that are found in the S&P 500 Index. The 8 best performing shares are automatically assigned a fixed return of 60%, regardless of whether their actual return was positive or negative. The remaining 12 shares are assigned their actual return. The global return is then determined according to the arithmetic average of these 20 returns.
